📍 Chennai, India | 📞 +91 8111067172 | ✉️ ghanancheyanmk@gmail.com | 🔗 [LinkedIn](#)

Results-driven Frontend Developer with hands-on experience in building responsive web applications using HTML, CSS, JavaScript, and React.js. Strong foundation in data analysis and real-time software development, with expertise in optimizing user interfaces for performance and accessibility. Passionate about problem-solving, continuous learning, and contributing to innovative tech solutions in a collaborative environment.

PROFESSIONAL EXPERIENCE

Frontend Developer Trainee

QSpiders, Chennai | Mar 2025 – Jul 2025

- Developed responsive and interactive web pages using HTML, CSS, and JavaScript.
- Built dynamic UI components using React.js and enhanced user experience with DOM manipulation.
- Collaborated in a team environment, participating in code reviews and mock interviews to refine development skills.
- Ensured cross-browser compatibility and optimized web performance for seamless user interaction.

TECHNICAL SKILLS

- Frontend Development: HTML5, CSS3, JavaScript (ES6+), React.js, DOM Manipulation
- Data Analysis & Visualization: SQL, Excel, Data Interpretation
- Tools & Libraries: OpenCV, Git, VS Code
- Soft Skills: Problem-Solving, Team Collaboration, Agile Practices

PROJECTS

1. Real-Time Driver Drowsiness Detection

- Designed a Python-based system using OpenCV and Machine Learning to detect driver fatigue via eye movement analysis.
- Implemented real-time alerts for prolonged eye closure or yawning to prevent accidents.
- Technologies: Python, OpenCV, Machine Learning

2. Customer Sales Analysis Dashboard

- Analyzed sales data using SQL and Excel to identify trends, top-performing products, and customer behavior.
- Created data visualizations to derive actionable insights for improving sales strategies.
- Technologies: SQL, Excel, Data Visualization

3. Social Media Engagement Analysis

- Analyzed social media metrics (likes, shares, impressions) to identify engagement trends and high-performing content.
- Developed data-driven recommendations for optimal posting schedules, increasing audience reach.
- Created visual reports (charts/graphs) to present findings to stakeholders for strategy improvement.
- Tools Used: Excel, Google Analytics, Social Media Insights (Facebook/Instagram/Twitter, etc.)

EDUCATION

Bachelor of Technology (B.Tech) in Information Technology

Jeppiaar Engineering College | 2020 – 2024

- CGPA: 8.0
